

Elite Tungsten Co. and Doug Vahrenberg join forces

Elite Tungsten co. and BASSmaster Open Pro, Doug Vahrenberg join forces to promote their new line of premiere tungsten weights. "I've been trying to find a negative to these weights but can't find any" states Doug. "I've been testing them in all types of conditions from fishing rock piles, grass, timber, brush piles and more and the Elite Tungsten shape is superior to any tungsten weight I've ever fished. Plus they take extensive care in polishing the bore of the weight to eliminate line damage." Elite Tungsten Co. has spent years refining and designing the perfect professional grade tungsten weights. Made of 97% tungsten, our tungsten fishing weights are twice as loud as lead, but 50% smaller than lead and eco friendly. Elite Tungsten Co. holes are precision-bored so you can peg those weights if you choose. A Silky Smooth, Durable finish is applied top to bottom. It's a tungsten weight like no other. "Tungsten weights are not created equal and Elite Tungsten has gone to the extremes to insure producing the best weights money can buy" stated Vahrenberg.
